## **Objectives**

### **4<sup>th</sup> Annual Biodiversity Partnership Conference**

**20 – 21 June, Belfast – Waterfront Hall**

#### General objectives

- To bring together the biodiversity community to cement a sense of common purpose in meeting UK and International objectives
- To stimulate interest and provide focus on a new area (in this case maritime biodiversity)
- To inform participants about progress and plans for future including on the UK BAP review processes and further engage with stakeholders by seeking their input and views
- To share ideas about the communication of biodiversity and use the profile of a national conference to raise awareness of biodiversity work in the local community

#### Specific objectives for 2006 Conference

- To draw out lessons from the development of marine biodiversity policy for the terrestrial and freshwater environments
- To consider the implications for the UK of any decisions reached at the 8<sup>th</sup> Conference of the Parties to the Convention on Biological Diversity
- To share the outcomes of the 2005 reporting round, targets review and priority species and habitats review
- To share the findings of the Biodiversity Communication Strategy (Northern Ireland)
