

**European Community Directive
on the Conservation of Natural Habitats
and of Wild Fauna and Flora
(92/43/EEC)**

**Second Report by the United Kingdom under
Article 17
on the implementation of the Directive
from January 2001 to December 2006
for Gibraltar only**

**Conservation status assessment for
Species:
S1310 - *Miniopterus schreibersi* -**

The information in this assessment corresponds to the "species fact sheet" submitted by the UK to the European Union in February 2008 (second and final submission). Please note that this is a section of the UK's report. For the complete report visit <http://www.jncc.gov.uk/article17>

Please cite as: Joint Nature Conservation Committee. 2007. *Second Report by the UK under Article 17 on the implementation of the Habitats Directive from January 2001 to December 2006*. Peterborough: JNCC. Available from: www.jncc.gov.uk/article17

Species Name: *Miniopterus schreibersi*

1. National level

Species Code

S1310

Member State

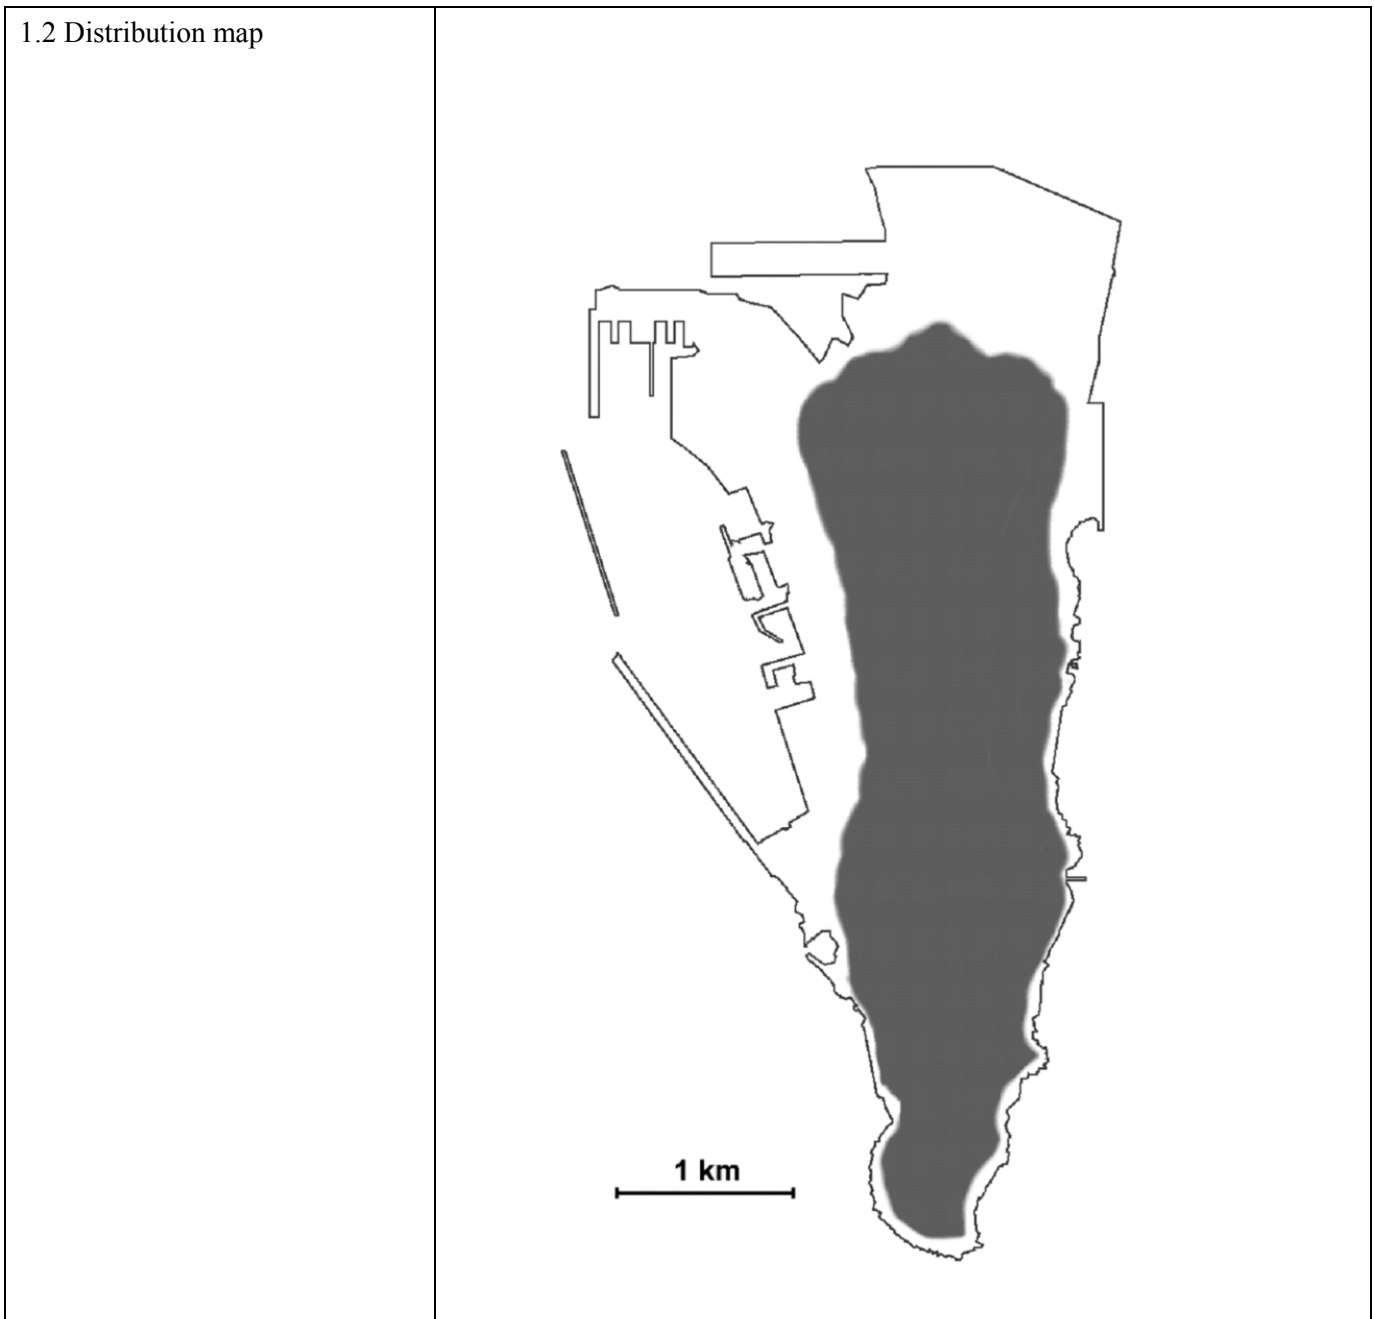

United Kingdom

Biogeographic regions concerned within the Member state

MED

1.1 Range map

2. Biogeographic level	
2.1 Biogeographic region	MED
2.2 Published sources and/or websites	<p>Palomo, L.T. & Gisbert, J. (eds.) (2002) Atlas de Mamíferos terrestres de España. Madrid: Dirección General de Conservación de la Naturaleza – SECEM-SECEMU. Pp. 226-229.</p> <p>Perez, C.E. (2006) Biodiversity Action Plan, Gibraltar. Planning for Nature. pp 125. Gibraltar: GONHS.</p> <p>Perez, C.E. & Bensusan, K.E. (2005) Upper Rock Nature Reserve. A Management and Action Plan. Gibraltar: GONHS.</p>
2.3 Range of species in the biogeographic region or marine region	
2.3.1 Surface range of the species (sq km)	4
2.3.2 Date of range determination	2007
2.3.3 Quality of data concerning range	Good

2.3.4 Range trend	Stable (=)		
2.3.5 Range trend magnitude (%)			
2.3.6 Range trend period	2004-2006		
2.3.7 Reasons for reported trend			
2.4 Population			
2.4.1 Population size estimation	Minimum	101	Maximum
	Units	Individuals	
2.4.2 Date of population estimation	2006		
2.4.3 Method used for population estimation	2 - Extrapolation from surveys of part of the population		
2.4.4 Quality of population data	Good		
2.4.5 Population trend	Stable (=)		
2.4.6 Population trend magnitude (%)			
2.4.7 Population trend period	2004-2006		
2.4.8 Reasons for reported trend			
2.4.9 Justification of % thresholds for trends (optional)			
2.4.10 Main pressures	710 - Noise nuisance; 740 - Vandalism; 990 - Other natural processes;		
2.4.11 Threats	710 - Noise nuisance; 740 - Vandalism; 990 - Other natural processes;		
2.5 Habitat for the species in the biogeographic region or marine region			
2.5 Habitats for the species			
2.5.2 Area estimation (sq km)	4		
2.5.3 Date of estimation	2007		
2.5.4 Quality of data	Good		
2.5.5 Trend of the habitat	Stable (=)		
2.5.6 Trend period	2004-2006		
2.5.7 Reasons for reported trend			
2.6 Future prospects			
2.6 Future prospects for the species	Poor prospects_Species likely to struggle unless conditions change		
2.7 Complementary information			
2.7.1 Favourable reference range (sq km)	4		
2.7.2 Favourable reference population			
2.7.3 Suitable Habitat for the species	4		
2.7.4 Other relevant information			
2.8 Conclusions <i>(assessment of conservation status at end of reporting period)</i>			

(2.3) Range	(FV) Favourable
(2.4) Population	(U1) Unfavourable - Inadequate
(2.5) Habitat for the species	(U1) Unfavourable - Inadequate
(2.6) Future prospects	(U2) Unfavourable bad
Overall assessment	(U2) Unfavourable bad
