## JNCC/NGOs Overseas Territories and Crown Dependencies Group Circulation List

In preparing for this meeting, UKOTCF discovered that some organisations which have previously asked to be removed from the circulation list have been reinstated in error. JNCC officers advised that their system had a problem with version control, and tended to assume any deletions are in error, then reinstating them. To try to overcome this, UKOTCF prepared this paper. Despite best efforts to work through the changes again, this may have errors. Latest advice from people concerned has been incorporated, and non-functioning emails deleted. It was agreed that this paper be updated and circulated periodically with any changes, so that errors can rapidly be identified. This version incorporates changes and corrections advised before, during and in the week after the 4<sup>th</sup> meeting.
