 Leading figures in the UK conservation community are meeting today. Among the main concerns to be addressed is the fact that

# UK Nature Barometer

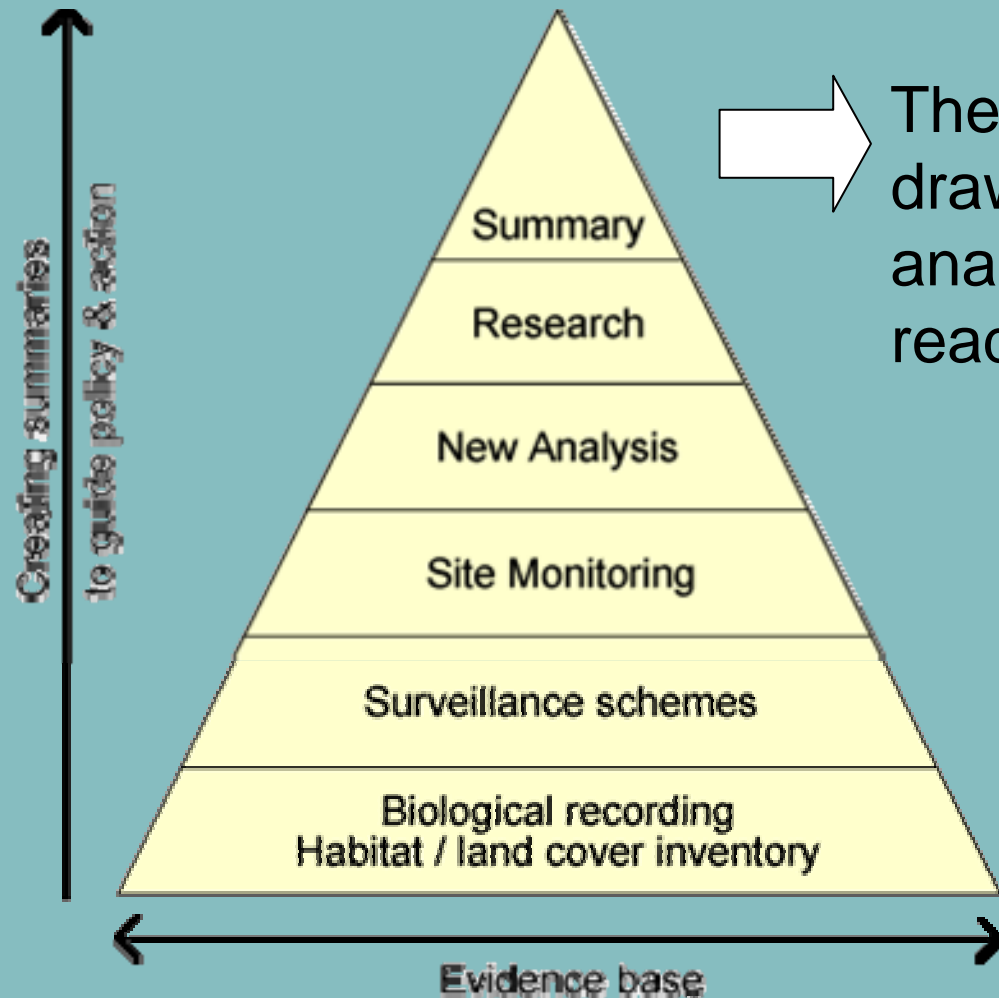

at..... [www.jncc.gov.uk](http://www.jncc.gov.uk)

The screenshot shows the JNCC website in a Microsoft Internet Explorer browser window. The address bar displays <http://www.jncc.gov.uk/>. The website header includes the JNCC logo and the text "JNCC adviser to Government". A search bar is located in the top right corner. The main content area features a "Joint Nature Conservation Committee" heading, a brief description of the JNCC's role, and a large announcement: "UK Nature Barometer is launched!". Below this announcement are two pie charts labeled "Sites" and "Species". The "Sites" chart shows a distribution of approximately 40% green, 30% orange, and 30% red. The "Species" chart shows a distribution of approximately 40% green, 30% orange, and 30% red. To the left of the main content is a "Menu" with links to various sections: Earth Heritage, Habitats, Species, Marine, International, Protected Sites, Conventions & Legislation, and UK Biodiversity. Below the menu is a "Contact" section with the JNCC's address, phone, fax, and email. To the right of the main content is a "Latest News" section with several news items, including "Vegetation Classification made easy", "UK Biodiversity information website hits 20 million record mark", "Minister announces new appointment to JNCC", and "UK Falling behind on Conservation Targets". The browser's taskbar at the bottom shows the Start button and several open applications, including Internet Explorer, Windows Explorer, Adobe Photos, and Adobe Acrobat. The system clock in the bottom right corner shows 14:40.
