Drawing together data and expertise – can you contribute?

The UK Nature Barometer draws on layers of data and analysis to produce summary readings of the state of nature to help guide policy and action.

- **Can you help?**
- Research into the causes of trends
- Developing ideas on how use results across sources to pinpoint pressures
- Helping make the statistics easy to update and use
- Helping develop a more coherent strategy for surveillance

Readings to guide policy and action – are you a customer?

What is the scale of the task?
