

Annex 2. Numbers of threatened and endemic species in the UK and its Overseas Territories

Table 1. Numbers of globally threatened species in the UK and its Overseas Territories. Source: *IUCN Red List of Threatened Species 2004¹*.

Territory	Mammals	Birds	Reptiles	Amphibians	Fish	Invertebrates	Plants	Total threatened species
Anguilla			4		11		3	18
Bermuda	2	4	2		11	25	4	47
British Indian Ocean Territory			2		4		1	7
British Virgin Islands	1	2	6	2	10		9	30
Cayman Islands		3	6		10		3	19
Falkland Islands	4	17			1		5	27
Gibraltar	1	5			9	2		17
Montserrat	1	2	5	1	10		4	23
Pitcairn		11	1		3	5	7	27
South Georgia and South Sandwich Islands	1	11						12
Saint Helena*	1	20	1		10	2	26	60
Turks and Caicos		4	5		9		2	20
Metropolitan UK	10	12			11	12	12	59

* Including dependencies of Ascension and Tristan da Cunha.

NB this list includes species which may be vagrants to a particular country. Whilst this does not affect Territory numbers to any great degree, the figures for the metropolitan UK also include species such as slender-billed curlew, Eskimo curlew, sociable plover and greater-spotted eagle which are rare visitors to the UK.

¹ NB, since these figures were compiled, the 2006 version of the IUCN red list has been produced; this will add additional threatened species to the table. Combined with the fact that additional work in the Territories frequently records new populations or species that may be threatened, means that these figures should be seen as work in progress.
